### **A GREEN PARTY CANDIDATE STANDING FOR PRACTICAL SOLUTIONS, FISCAL RESPONSIBILITY AND ZERO WASTE.**

We need a new perspective. I am the only challenger to a 24-year incumbent for County Commissioner Pct. 2, and I need your help to win! I have provided efficiency solutions to the common business problem of reducing costs and maintaining a budget while increasing benefits and services for a wide variety of non-profits and small businesses, and now I want to lend my experience to improving our county government. Please give me a chance to make this county a better place for everyone. Please visit my website for additional information. Thank you for your vote!
